

Are you a Registered Training Organisation (RTO) currently finding it difficult or are after a better way to manage your Training Records? Then PowerPro RTO TMS is the Software product for you.

PowerPro RTO - TMS, a well-established Training Records Management System, is designed to help Registered Training Organisations manage their records in an easy and effective manner.

Using the Australian Standard Training terminology and fully AVETMISS 6 and RAPT compliant, PowerPro RTO – TMS is the essential Training Management Database tool for any Training Organisation or business involved in the delivery of training.

In use by RTO's since mid 2004 in industries that range from Transport to Communication, PowerPro RTO - TMS is a mature and stable product with an ever-increasing number of features and capabilities.

Assuming no one knows the needs of a product better than those who use it, we utilise input from our clients to choose the features to implement in upcoming versions of the product. This makes PowerPro RTO - TMS a software application that is guided by those involved in the Training Industry and therefore tailored for the Training Industry.

Our Software Licensing options also make it extremely affordable for Smaller Organisations and scalable for the Medium to Large providers.
